Mobility Management Names 5th Annual Best Picks Winners

IRVINE, Calif. — The Elevation wheelchair by PDG Mobility has been named a 2015 Best Pick by *Mobility Management* magazine.

For the fifth consecutive year, *Mobility Management* asked clinicians and Assistive Technology Professionals (ATPs) specializing in seating & wheeled mobility to share their favorite complex rehab products. Their answers are published in *Mobility Management's* July 2015 issue, as are honor rolls of previous Best Picks.

Mobility Management Publisher Karen Cavallo said, "We're pleased once again to turn the spotlight on a few of the many rehab products making a difference to prominent OTs, PTs, ATPs and their clients every day. We're happy to help celebrate the technology that optimizes independence and supports positive clinical outcomes for so many children, teens and adults who use wheelchairs."

"Our Best Picks are chosen exclusively by healthcare professionals who work with seating & wheeled mobility equipment every day and know every product detail," said Editor Laurie Watanabe. "Our winners have proven to be true innovators and consumer advocates, even in challenging funding atmospheres."

In addition to appearing in the July issue, 2015 Best Pick winners appear in the online version of the story on MobilityMgmt.com, and will have their products' photos and writeups appear online.

The Best Picks program celebrated its fifth anniversary in 2015.

About *Mobility Management* & 1105 Media

Mobility Management is published monthly for ATPs, occupational and physical therapists specializing in seating & mobility, and mobility dealers. Major areas of coverage include funding and documentation, clinical evaluations and outcomes, case studies, new technology, news and education.
